

The Year of Sponsorship is almost at an end.

The financial sponsorship for our two Newcomer families (former refugees) will come to an end on 13th April 2018, whilst relationships developed will continue in the years to come.

They've worked hard to learn as much English as possible in the past year and continue to improve daily.

Volunteers are working with them in their job search and ensuring that schooling can continue for the older children where possible.

An update on their progress will be posted periodically here if you wish to keep track of their progress.

In the interim the volunteer team continue to support and assist the family to achieve great things for their new life in Canada.

A huge thank you from everyone at our Seven United Churches of the North Shore, for your interest in this program and your generous donations and support.
